Medical & Pharmaceutical industry is continuously challenged with stringent regulatory controls governing end users product and packaging material ingredients. This has in-turn increased responsibility of packaging convertors to adhere to maintain traceability of raw materials, ensuring batch-to-batch consistency and high level of material safety.

Coraplast has formulated an extensive range of masterbatches – Colour Concentrates, White, Black and Additives, which are widely used in medical, pharmaceutical and personal hygiene industries.

Coroplast Industries

Established in the year 2000, Coroplast Industries is one of the leading players in Plastics and Fiber grade Masterbatches in India. Our production and R&D facilities are located in Valsad, Gujarat.

Coroplast Industries have invested in the most advanced and modern manufacturing technology from the leading global companies.

With current Masterbatch production capacity exceeding 65,000 MT annually, we deploy best manufacturing practices and have integrated all process-related machines to systems which capture real-time process parameters for better operation control, improvement in productivity and enhance reproducibility.

We have expanded our presence through our growing number of sales offices across India and Globally.

Customer Service

Being a customer driven company, we have always been proactive to customer's needs, for new product development, application support, product economy or regulatory aspects.

Our technical services team, with help of the latest lab-scale pilot plants translates new products to competent solutions by simulating conditions of applications in our labs.

Meeting a customer's Colour requirement is crucial, more than developing a right colour, it's also important to provide them with cost-effective solutions. We create 70 new shades every week and have already developed more than 15000 shades.
