

# consumer products

*empowering brands with colour and performance.*

## Focus Segments

Food Packaging

Housewares

Personal Care

**Consumer product brands are continuously striving to understand, build stronger relationship, stay relevant and engaged, be on time with consumers of today.**

This calls for quick development of new Colours, effects and functionality for end products on variety of polymers, helping convertors and processors turn around right and cost-effective solutions quickly.

Our products meet key regulatory compliances like RoHS, US FDA, EN 71, among others.

## Select Grades

Sr. No.	Product Code	Base Polymer	Pigment / Additive %
<b>WHITE MASTERBATCHES</b>			
01	WHITE 452 MD	PE	40
02	WHITE 85 FF	PE	30
03	WHITE 96 FF	PE	50
04	WHITE 209 FF	PE	38
05	WHITE 345 FN	PP	70
06	WHITE 522 MD	EVA	50
07	WHITE 322 MD	GPPS	30
08	WHITE 337 MD	PET	60
<b>BLACK MASTERBATCHES</b>			
01	BLACK 04 FF	PE	40
02	BLACK 10 FS	PE	40
03	BLACK 101 FF	PE	40
04	BLACK 32 PP	PE	50
05	BLACK 93 FF	PP	40
06	BLACK 55 FF	EVA	45
07	BLACK 89 MD	GPPS	40
<b>ADDITIVE MASTERBATCHES</b>			
01	UVS 402	PE	20
02	UVS 404	PE	20
03	BRIGHTNER 02 M	PE	1.3
04	BRIGHTNER 1607	PET	2.5
05	CLA 611 PP	PP	3
06	CLA 631 PP	PP	3
07	AO 921	PE	20
08	AO 222	PP	20
09	AST 320	PE	10
10	AST 204	PE	10
11	SLIP 115	PE	10

## consumer products

### Customer Service

Being a customer driven company, we have always been proactive to customer's needs, for new product development, application support, product economy or regulatory aspects.

Our technical services team, with help of the latest lab-scale pilot plants translates new products to competent solutions by simulating conditions of applications in our labs.

Meeting a customer's Colour requirement is crucial, more than developing a right colour, it's also important to provide them with cost-effective solutions. We create 100 new shades every week and have already developed more than 20,000 shades.

### Coroplast Industries

Established in the year 2000, Coroplast Industries is one of the leading players in Plastics and Fiber grade Masterbatches with two production and R&D facilities located in India & Turkey.

Coroplast Industries have invested in the most advanced and modern manufacturing technology from the leading global companies.

With current Masterbatch production capacity exceeding 125,000 MT annually, we deploy best manufacturing practices and have integrated all process-related machines to systems which capture real-time process parameters for better operation control, improvement in productivity and enhance reproducibility.

We have expanded our presence through our growing number of sales offices across India and Globally.
